

## The "Original"™ Aqua Stack

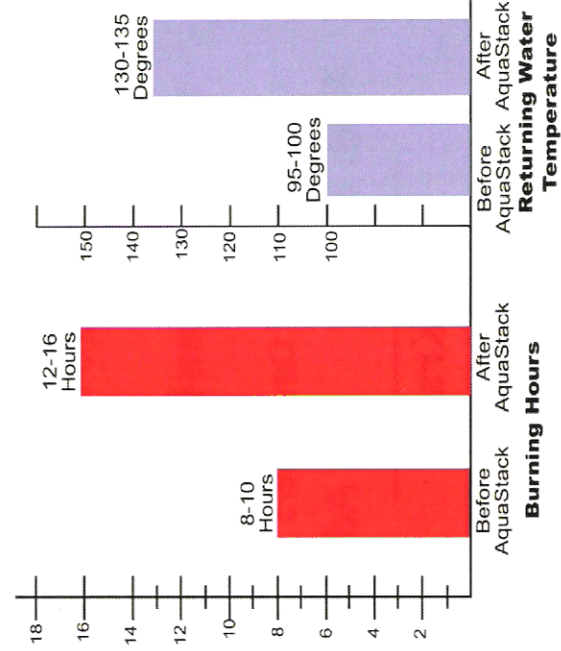

The Aqua Stack™ Reclaimer has been designed for ultimate performance in flue gas heat loss reclamation and will work with stoves with poor or no baffle systems.

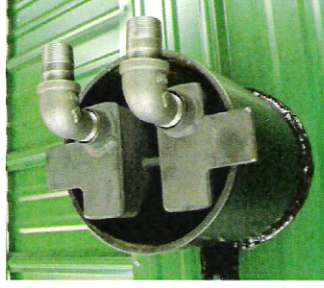

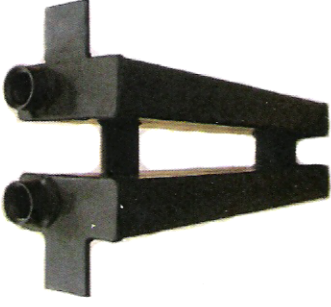

## The "Gatlin"™ Aqua Stack

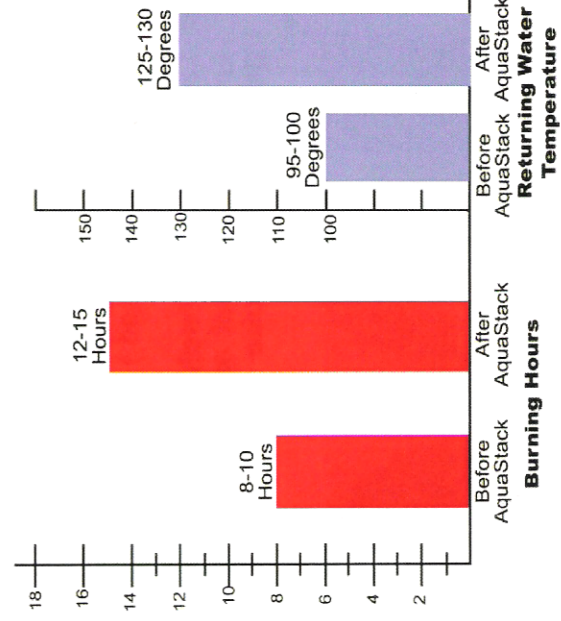

The Gatlin Aqua Stack™ has been designed to obtain maximum results with the ease of drop-in installation, and will operate in flue stacks 20 inches or more in length.

## The "Boot"™ Aqua Stack

The Boot Aqua Stack™ has been designed to operate under the most adverse conditions while maintaining maximum performance.

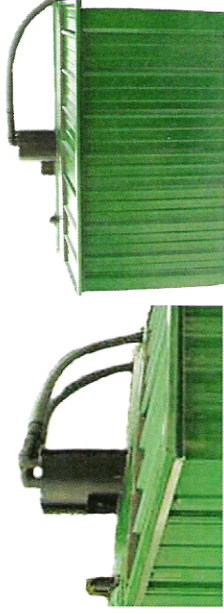

What you need to know  
about the **Aqua Stack™**  
line of products:

- \* **Maximizes your Stove's Efficiency!**
- \* Designed to extrude lost BTUs, utilizing a Patent Pending design.
